

NOTES

- Geometrics shall be confirmed prior to the installation of signal equipment. All signal equipment shall be installed at final grade.
- Loop detectors and conduits shall be installed prior to the installation of pavement markings and final course of paving.
- Pavement markings detailed are proposed and are to be installed by the Contractor in accordance with S.H.A. standards. All other pavement markings will be installed as part of the highway contract.
- All underground and overhead utilities shown on these plans are schematic and are not to be considered complete. The Contractor shall be responsible for notifying all utility companies prior to construction so that all utilities may be located in the field. If the Contractor perceives that a conflict between the utilities and the traffic signal equipment will occur, the Contractor shall notify the appropriate Project Engineer immediately.
- Contractor shall hand excavate for each new foundation until all utilities have been adequately cleared.
- Original signal, design, and construction by Baltimore County.
- Signal Contractor to excavate sidewalk as necessary to remove/install traffic signal equipment. Upon completion of Traffic Signal work the Signal Contractor is to backfill the excavated areas with a MD-SHA approved material. The restoration of the sidewalk areas is to be completed by others.
